

Tug Strap Instructions

Supplies:

- Three 5 foot long 2.5 inches wide strips of fleece (3 different colors)
- One 3 inch long carabiner

Step 1: Put all strips of fleece through carabiner and center carabiner on strips.

Step 2: Tie a knot to keep the carabiner in the center of the strips.

Step 3: Separate fleece strips by color so you have three sections of same colored strips.

Step 4: Braid the three sections to about 15 inches in length.

Step 5: Knot 2 colors of strips together. Repeat knotting alternate colors 2 or 3 times until the knot is secure. For example, based on the colors in the picture, you would knot green to pink, then green to gray then pink to gray. Remove the carabiner before giving to your dog as a tug toy. You are finished!
